

## Pin Configuration

SOP-7

## Marking Information

SOP-7

DP2701X for product name:

XXXXXX represents the last year, which is a 4-digit year, and the next two digits are letters. The third and fourth X on behalf of the date.

Typical Output Power Table(1)

Output Voltage (V)	Output Current (A)	Output Power (W)
3	1.5	4.5
5	1.0	5
6	0.8	4.8
7.5	0.6	4.5
12	0.4	4.8

Note 1. The Max. output power is limited by junction temperature.

Note 2. 230VAC or 100/115VAC with voltage doubler.

Note 3. Typical continuous power in a non-ventilated enclosed adapter with 50°C ambient temperature.
